

Saskatchewan Liquor and Gaming Authority

Plan for 2012-13

PLAN FOR 2012-13

Statement from the Minister

On behalf of the Saskatchewan Liquor and Gaming Authority (SLGA), I present SLGA's Plan for the upcoming year. The Plan identifies how SLGA aligns with Government's Direction for 2012-13 and reflects SLGA's primary areas of focus. The Government's Direction and Budget for 2012-13 are built around *Keeping the Saskatchewan Advantage*, supporting our sound economic growth so that prosperity can be shared across the province.

Commitments contained in SLGA's 2012-13 Plan continue to focus on improving the effectiveness and efficiency of operations across the organization with a view to improving both customer service and financial performance. In addition, the Plan will contribute to a stronger business climate for its stakeholders while supporting sustainable and socially responsible growth in SLGA's net income over the medium term. SLGA's net income growth is essential to providing sustainable funding in support of government programs and services.

SLGA will report on progress made toward this Plan, within the financial parameters provided, in the 2012-13 Annual Report.

The Honourable Tim McMillan

PERFORMANCE MEASURES

Measure

SLGA net income

Fiscal Year	SLGA Net Income
2010-11	\$442.5 M
2009-10	\$433.1 M
2008-09	\$435.0 M
2007-08	\$398.0 M
2006-07	\$370.3 M

Measure Description

SLGA plays a very important role in funding provincial programs and services. SLGA's net income reflects the total net revenue generated by the Province's liquor industry and the majority of the gaming industry after deducting operating expenses. This is a critical outcome for SLGA and it contributes significantly to meeting the government's revenue needs for the funding of other key programs.

SLGA's net income measure reflects SLGA's core business activities and is directly aligned with Government's overarching goal of growth and opportunity. In addition to overall economic conditions, this measure is dependent upon the balance SLGA must achieve between revenue generation, stakeholder benefits, customer service, social responsibility and operational efficiency.

Historically, SLGA has demonstrated a steady increase in its net income. Continued monitoring of financial performance as it relates to liquor and gaming activity is key to maintaining growth into the future.

2009-10	\$65.1 M
2008-09	\$59.9 M
2007-08	\$58.1 M
2006-07	\$48.8 M

Source: Saskatchewan Liquor and Gaming Authority

Measure Description

This measure reflects the total net income generated by the SIGA casinos in the Province after deducting operating expenses. As required by section 207 of the *Criminal Code of Canada*, SLGA owns the slot machines located in SIGA's casinos. The revenue generated from the machines is distributed according to the revenue sharing formula in the 2002 Gaming Framework Agreement between the Province and the FSIN.

The General Revenue Fund retains 25 per cent of SIGA's net profits (after defined payments) in support of broader provincial objectives. The remaining 75 per cent is distributed back to First Nations communities via the First Nations Trust (FNT) and Community Development Corporations (CDCs). The FNT supports economic development, social development, justice, health, education, culture and other First Nations initiatives. The CDCs fund economic development, social development, justice, education, recreation, culture, health and other related initiatives among First Nations and non-First Nations in and around the communities where the casinos are located.

SIGA's net income is linked to SLGA's strategies to support economic growth in liquor and gaming industries and associated sectors and to support and strengthen the collaborative partnership between SLGA and First Nations. A key driver of SIGA's net income growth since 2006-07 was the introduction of 750 additional slot machines at the Dakota Dunes Casino in Saskatoon and the Living Sky Casino in Swift Current. This measure can be impacted by overall economic conditions and competition from other gaming sectors.

Measure

VLT site commission

Fiscal Year	VLT Site Commission
2010-11	\$33.9 M
2009-10	\$34.3 M
2008-09	\$36.6 M
2007-08	\$39.9 M
2006-07	\$36.6 M

Source: Saskatchewan Liquor and Gaming Authority

Measure Description

This measure illustrates how private businesses benefit from VLT activity in the province. SLGA supports local businesses through a 15 per cent VLT site commission to liquor permitted establishments that host VLTs. In 2010-11, these site commissions helped to support 629 site contractors in 302 communities in Saskatchewan.

VLT site commissions are linked to Government's goal of growth and opportunity. The VLT program operates within a provincial cap of 4,000 VLTs balancing both social and fiscal responsibilities.

The decline in VLT site commissions relative to 2007-08 is primarily due to a one-time cost incurred in 2007-08 associated with the negotiated closing of the Emerald Casino in Saskatoon as well as a continued decline in VLT activity that began in 2008-09. Replacement of SLGA's VLT network is expected to reverse this trend in the near to medium term. This measure can be impacted by overall economic conditions and competition from other gaming sectors.

Total gross franchise and commercial permittee beverage alcohol purchases

2009-10	\$50.2 M	\$215.4 M

2006-07	\$37.1 M	\$186.8 M

¹ Includes Specialty Wine Store Franchise Purchases
Source: Saskatchewan Liquor and Gaming Authority

Measure Description

This measure reflects the beverage alcohol purchases made by SLGA’s partners in the private sector, illustrating the extent to which the Saskatchewan beverage alcohol market is served by a blended distribution model. The rural franchises and commercial permittees in turn generate additional revenue and economic activity through the resale of beverage alcohol in support of other core business areas such as accommodation, food services and retail sales. Specialty Wine Store Franchises (SWSFs) were introduced in 2009-10, serving the Regina and Saskatoon specialty markets.

The total gross franchise and commercial permittee beverage alcohol purchases measure is linked to the overarching Government goal of growth and opportunity. SLGA views franchisees and commercial permittees as partners in the beverage alcohol market and as such SLGA provides policy, operational, and financial support where and when possible to ensure sustainability or positive growth occurs.

In addition to their relationship with the strength of the Saskatchewan economy, these performance measures can be affected by weather conditions. While franchise purchases have recorded growth in each year since 2006-07, commercial permittee purchases were affected by the cold and wet summer weather experienced in 2010. Off-sale outlets are responsible for a significant percentage of impulse beer purchases in Saskatchewan; therefore, the decline in the volume of beer sales in 2010-11 was disproportionately felt by off-sale outlets. The growth since 2006-07 has also been supported by a combination of industry price increases, trading up by the consumer to higher priced products and an increase in the volume purchased and ultimately sold by SLGA’s partners. Purchases by the SWSFs are anticipated to grow over time as they continue to meet consumer demand, building on this niche market.

Measure

Marginal return on expenses (MRE)

Fiscal Year	Marginal Return on Expenses
2010-11	1.39
2009-10	(0.11)
2008-09	+2.23
2007-08	+0.49
2006-07	+1.61

Source: Saskatchewan Liquor and Gaming Authority

Measure Description

This measure expresses an overall return on investment as an outcome. It expresses a ratio between the change in net income compared to the change in total operating expenses and reflects the principle that while operating expenses can increase, this growth often leads to an increase in net income. Any outcome greater than zero is a positive outcome.

The MRE measure is linked to SLGA's strategy to ensure continuous improvement in internal operational efficiency and productivity. A positive and increasing MRE is a good indication that SLGA is managing expenses in a fiscally responsible manner that is generating growth in net income.

SLGA has some influence over aspects of this measure, especially regarding operating expenses and policy development aimed at growing net income over time. In 2009-10, the MRE was negative as a result of declining VLT activity. In all other years, the measure has been positive; indicating that increased expenses and business investment has translated into increased net income.

Retail Liquor Store Customer Satisfaction

	2002-03 (phone)	2004-05 (phone)	2007-08 (phone)	2010-11 (phone)	2010-11 (online)
Satisfied with Customer Service	92%	91%	88%	92%	83%
Customer Service Meets or Exceeds Expectations	97%	96%	95%	97%	95%

Source: Saskatchewan Liquor and Gaming Authority

Note: 2002-03 through 2007-08 survey results are considered accurate to within plus or minus 2.5 per cent at a 95 per cent confidence level. The 2010-11 phone survey results are considered accurate to within plus or minus 3.7 per cent. Online survey results were derived by a new sampling methodology (non-probability sampling technique): therefore the standard margin of error calculation is not applicable for the online study.

Measure Description

Customer satisfaction is an important indicator of the quality of SLGA's programs and services and how they are perceived by the public. Excellent customer service is one of the most important outcomes for SLGA as a customer-oriented retail business. Identifying what is most important to customers is a key component for SLGA in continuing to offer high quality programs and services.

This measure is directly aligned with Government's goal of responsive and responsible government and SLGA's strategy to provide responsive and high quality services to customers and stakeholders.

In response to declining response rates via telephone and the increased prevalence of cell phone only households, SLGA conducted a tandem customer satisfaction survey (both online and telephone surveying) in 2010-11. The telephone survey component allowed for direct comparisons to the 2007-08 survey results and the online survey component facilitates the transition between the two methodologies and establishes an online benchmark for future online surveys. The survey results indicate a high level of customer satisfaction with retail liquor store service. In response to the results of the 2010-11 survey, SLGA has implemented a mystery shopper program in our retail store system in order to further define areas that were identified for service improvement. Once complete, SLGA will use the results to develop and refine training strategies and policies in response to findings.

Customer satisfaction is dependent upon service levels in stores and increasing demand for expanded product selection by SLGA's customers. Responding to increased demand created by the population growth occurring in Saskatchewan's major urban centres is a key factor in meeting customer expectations.

FINANCIAL SUMMARY

SLGA's 2012-13 financial plan supports the organization's key strategies that are designed to assist Government in achieving its goals and directions. The main financial outcome for SLGA is its net income which consists primarily of the following components: provincial VLT revenues; SIGA net income; and profits from the retail liquor sector.

SLGA's net income is essential to supporting broader provincial objectives. For 2012-13, SLGA is budgeting for a net income of \$439.9 million. VLT net income is budgeted at \$180 million, SIGA net income is forecast at \$67.9 million and net income from the retail liquor sector is budgeted at \$235 million. The net income generated in these areas is offset by the net cost of licensing, regulation and support in both the liquor and gaming areas of \$43 million.

Overall, SLGA's capacity to continue to generate additional revenues is impacted by a variety of economic forces and public policy choices. Maintaining a balance between revenue generation and social responsibility is key to SLGA's success in supporting government achieve its goals.
