Introduction

The 2009-10 Supplementary Estimates – November are prepared in accordance with Section 12(1) of *The Financial Administration Act, 1993* and therefore include the estimated increases in 2009-10 “To Be Voted” and “Statutory” expenditures, loans, advances or investments to be paid from the General Revenue Fund (GRF).

The funding requests reflect the additional commitments that the government has or will undertake during the fiscal year. The requested funding is the net amount required after reallocating voted appropriations not required in other areas of the Vote.

The Supplementary Estimates – November contain financial statements and schedules similar in format to those included in the main Estimates and incorporate estimated changes in revenue, expenditure and loan disbursements.

The detail section of the Supplementary Estimates – November follows the similar Vote (ministry or Crown organization), subvote (major program area) and allocation (component of a subvote) as the main Estimates.

The subvote descriptions provided in the main Estimates apply to the Supplementary Estimates – November. Subvote descriptions may be expanded by the explanation for the additional funding provided by the Supplementary Estimates.

Descriptions for new votes and subvotes are incorporated into the explanation for the additional funding.

The Principles and Concepts, Accounting Policies and Glossary of Terms outlined in the main Estimates apply to the Supplementary Estimates – November.

Additional funding is required to participate in federal stimulus initiatives for training opportunities and employment support programs through the Labour Market Development Agreement, Labour Market Agreement, and Targeted Initiative for Older Workers. This funding is fully offset by federal revenue.

Additional capital investments will provide for \$56.4M in stimulus projects approved under the Knowledge Infrastructure Program which will be offset by the federal revenue. The appropriation required is offset by ministry savings of \$42.3M achieved primarily by deferring costs not currently required by the University of Saskatchewan for the Academic Health Sciences Building along with the ministry's restraint initiatives.
